**Subject: Notice of Upcoming Water Utility Rate Increase**

Dear Violet Water Customer,

We are writing to inform you of an upcoming adjustment to the rates for water service, effective February 2026 which will appear on your **March 1, 2026** billing cycle.

We understand that any cost increase impacts your household budget, and we have worked diligently to keep our operating costs and rates to a minimum. However, this adjustment is necessary to ensure we can continue providing the safe, reliable, and high-quality water service you expect and deserve.

The primary reasons for this rate change are due to:

- **Increasing operational costs:** We, like many public utilities, have experienced rising costs for electricity, chemicals, parts, pumps, and lab supplies necessary for water delivery and system maintenance. Along with the escalation of costs for purchasing water from the City of Corpus Christi.
- **Infrastructure improvements:** The additional revenue will help fund essential capital replacement projects, such as upgrading aging water mains and pump stations and meters, to improve system reliability and meet state mandates required by TCEQ (Texas Commission for Environmental Quality) for water quality.
- **Guidance from a utility rate study:** This increase follows the recommendations of a third-party utility rate study to maintain the District's financial solvency and eligibility for future improvement grants.

The new rates will be as follows:

*Monthly system base rate.....\$55.00 this is includes the first 2,000 gallons.*

*Incorporated tiered water cost based on water actually consumed by each customer as follows:*

<i>2,001- 6,000 gallons.....</i>	<i>\$10.90 per 1,000 gallons</i>
<i>6,001- 10,000 gallons.....</i>	<i>\$11.90 per 1,000 gallons</i>
<i>10,001- 20,000 gallons.....</i>	<i>\$12.90 per 1,000 gallons</i>
<i>20,001- 40,000 gallons.....</i>	<i>\$13.90 per 1,000 gallons</i>
<i>40,000 - (+).....</i>	<i>\$14.90 per 1,000 gallons</i>
